### HYDRATION STATIONS AVAILABLE TO VISITORS AT THE DUTCHESS COUNTY FAIR

Rhinebeck NY – The Dutchess County Fair has added two water refill stations for visitors to access during their day at the Fair. “More and more people travel with their own refillable water bottles. We realized there was a need for a place where people could refill them.”

The hydration stations are located near the Track Bathroom (Map #18) and near the First Aid Station and Main Restrooms (Map #9 & 10). The map and fair schedule can be downloaded from the Fair’s website [www.dutchessfair.com](http://www.dutchessfair.com) or on the App.

Although water is the key, there are all kinds of drinks sold by the plethora of food vendors at the fair. Don’t wait until you feel thirsty. Lemonade, slushies, smoothies, soda, milkshakes and ice tea are just a few of the many liquid refreshments available to fairgoers.

Cooling stations and misting fans are also available to fairgoers. EMS medical staff is available for visitors who may experience any heat-related illness or do not feel well during their visit.

Grab a cold refreshment, find a shady spot and take a moment to sit back and enjoy the many sights and sounds of the Dutchess County Fair.

The Dutchess County Fair begins August 22<sup>nd</sup> and runs through August 27<sup>th</sup>. Visit [www.dutchessfair.com](http://www.dutchessfair.com) for more information.
